

Alissa Dureman

Dear Herzberg family,

My science class is writing you to thank you for your sacrifice and letting us have the freedom we do. You're apart of the reason we're free today and I can't believe how it'd feel. Thank you for making our country what it is and I'm sorry for your loss. Your son is literally considered a hero to our country. And always will be a person I look up to, personally.

Have a good memorial day

Alissa Dureman (:
