

Dear Herzberg family,

I am aware that your family receives many letters each year and get many "im sorry"s but I believe that you deserve more "thank you"s. I want to say thank you for every thing you have done and continue to do for Mona Shores 8th graders. Thank you for raising such an amazing son that dedicated his life to our country. Grief is one of the hardest things to overcome and takes time but you are doing amazing. With learning your sons story I have realized that I should never take anything for granted. I have also learned that it never hurts to smile or make other peoples days better. I believe that I should try to be more like your son by following my heart and not letting others define what I do. Although your son isnt here in the physical sense he is here in our hearts and minds. Thank You.

My deepest condolences,

Celia Robbe
