

Dear Herzberg Family,

I am so sorry for your loss. I couldn't imagine everything your family went through. I don't know your son personally but I know that he was a great person. Not many people could take that risk of putting their own life in danger to protect this country. I know he may not be here with us now but he is in a better place now. He did everything he could to keep us safe and died a hero. Hearing his story inspired me in many ways. I couldn't be more proud of everything he did for us. You raised a great son and I will never forget his story. He has had a positive impact on all of kids and Teachers at Mona Shores and around the country. Thank you for all your son did and his bravery. No matter what I say word can't even come close to how thankful I am for everything he has done. Thank you.

From, Owen Terpstra
